PROFILE

I completed six years of study in Electronic and Communication Engineering at Technological University (Maubin), Myanmar, reaching the final year of the program. I also completed a Higher Diploma in Business Infocomm Technology at TMC Academy, Singapore, and recently graduated with an International Diploma in Software Development (IDSD). In addition, I volunteer at IN3 Lab Center in Singapore, assisting children with coding and robotics activities. I'm seeking a position as a Web Developer or Junior Software Developer where I can apply my technical knowledge, programming skills, and project experience while continuing to develop my professional capabilities.
